Re: Alaska Certification of Support for High Cost Eligible Telecommunications Carriers Pursuant to 47 C.F.R. § 54.314, WC Docket No. 10-90
RCA Docket U-12-100

To the Filing Representatives:

The Regulatory Commission of Alaska (RCA) hereby certifies, on the basis of the filed self-certifying affidavits, that all federal high cost support provided to Eligible Telecommunications Carriers (ETCs) in Alaska was used in 2011 and will be used in 2013 only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with 47 U.S.C. § 254(e).¹ Accompanying this certification is Attachment A, a list of carriers currently designated as ETCs by the RCA as eligible to receive federal high cost support, pursuant to its authority under 47 U.S.C. § 214(e)(2), including wireless ETCs that are not subject to economic regulation by the RCA and other local exchange carrier ETCs that have been economically deregulated.

¹ ACS of Anchorage, Inc. did not receive high cost support during the prior calendar year, however it is slated to receive CAF-1 support in the coming calendar year. The RCA's certification with respect to ACS of Anchorage, Inc., is therefore only prospective in nature and is based on the carrier's self-certifying affidavit filed with the RCA in which it commits to using those funds in the coming calendar year (2013) as intended.

Additionally, Attachment A lists each carrier's assigned study area code(s), if known.²

This certification does not preclude the RCA from reviewing in further detail how any carrier has deployed its federal universal service support, nor from ordering that the support be used in conformance with RCA directives or policies. This certification similarly does not bind the RCA in any future or pending matters before it involving any carrier to which this certification applies.

Sincerely,

REGULATORY COMMISSION OF ALASKA

Paul F. Laidie, Commissioner
for T.W. Patch
Chairman

² Please note that the RCA instructed all ETCs to make an individual assessment of whether 47 C.F.R. § 54.314(b) applies, and if so, to file appropriate certifications directly with the Federal Communications Commission and with the Administrator, pursuant to 47 C.F.R. § 54.314(c)(2), by the October 1 deadline.
